- Register at hof-teamcamp.com, payment by credit card is due at the time of enrollment. Registration opens on **Monday, March 24th at 9 AM**.
- If you are placed on a waitlist, you will be notified if a seat becomes available and will have the option to accept or decline the seat.
- Registration closes on **Friday, April 4th at 11:59 PM**. Class schedules cannot be changed after registration closes.
- Upon registration, you will indicate if your child will walk home, attend Kids Time or Kids Play aftercare (escorted by a staff member), or will be picked-up. Campers should be picked up within 5 minutes of class end-time from the Playcourt.
- Standard Class enrollees have the option of enrolling in a Block 2 class as well.
- During the registration process, there will be an option to request a scholarship.
- Campers will go directly to the Playcourt at the end of the school day for check-in, snack, & social prior to the start of class. Please send your child with a snack and water bottle. **Please remind your child that the snack is to be saved for after-school enrichment.**
- Should an instructor cancel for the day, **please plan alternate after-school arrangements for your child**. You will receive a refund for any days that the instructor misses. Instructors with attendance issues will not be asked to return for subsequent quarters.
- Families will not be reimbursed for days that learners do not attend.

CLASS DESCRIPTIONS: Spring Quarter (4/22/25 – 6/12/25)

Classes that do not meet the minimum enrollment will be cancelled.

1on1 Sports: After-School Hoops

(K-2nd Grade, Min 10/Max 18)

Join One-on-One Basketball this semester for After School Hoops®, an ideal after school activity for aspiring athletes. Basketball is a unique sport that combines upper and lower body motor-skill learning with an intense cardiovascular workout. Our organization has decades of experience teaching this sport in a motivating, inclusive and age-appropriate manor. After School Hoops® makes three guarantees: your child will learn, sweat, and have fun!

Bricks 4 Kidz: Superhero Academy

(K-3rd Grade, Min 8/Max 14)

Build motorized super hero characters and their contraptions with LEGO® bricks! Join Bricks 4 Kidz to fight crime along-side all of your favorite heroes from comics and movies. We'll sling webs, fly faster than a speeding bullet, and assemble an incredible super-powered team at the Super Hero Academy!

Creative Coding

(3rd-5th Grade, Min 5/Max 12)

Creative Coding teaches your child to code by helping them make their own custom video games! Our Project based, multi-level classes are amazingly fun yet very effective in teaching creative problem solving AND emotional resilience. As the students bring their ideas to life, they iterate through the emotional cycle of Coding (idea>excitement>effort> frustration>more effort>triumph!) with our support and positive encouragement. Repeating this cycle not only builds great coders, but more importantly, develops emotional persistence that will help students enjoy taking on new challenges in all aspects of their lives. Students new to coding will participate in the Creative Coding core curriculum, learning the fundamental elements of coding using MIT's Scratch to create their very own computer games! Many parents and educators are realizing that the benefits of learning to code at a young age extend far beyond the skill itself. Through the "brain exercise" of coding, coders build intelligence like athletes build muscles. Just as importantly, they develop stronger problem-solving skills, confidence over technology, and emotional persistence.

HOFTC: Choose Your Own Adventure

(K-5th Grade, Max 8)

Would your child like to join friends for an **organized active game** led by one of our experienced counselors? Would they prefer to play an **indoor board game or card game**? How about **solo time** to color or work on homework? Maybe they just need some **less-structured free-time** on the playground or field (rain or shine!) after school to burn off excess energy and engage in free play. We offer all of those options! Choose Your Own Adventure allows each child to recharge after school in their own way, without screens and with proper supervision.

Kids' Carpentry Seattle

(K-5th Grade, Min 5/Max 8)

Kids' Carpentry is a hands-on toy building experience designed to teach kids practical woodworking skills with an emphasis on the safe use of hand tools. While kids construct fun and exciting projects, they are also empowered to become independent thinkers--building confidence, self-esteem, and a repertoire of practical skills that will last them a lifetime. At the end of the session kids will bring home one or more wooden games or toys that they have built by hand from scratch.

Mad Science: Crazy Chemworks!

(1st-5th Grade, Min 12/Max 20)

In this program children make gooey slime, experiment with different reactions, and learn to use the tools that chemist use. Polymers and catalysts are only two of the fascinating concepts young scientists explore in this thrilling trip through the chemistry lab! At the end of every class, they take home an educational toy that extends the learning experience! Our class topics: Lab Works, Chem in a Flash, Junior Reactors, Glow Show, pH Phactor, Super Sticky Stuff, Slime Time, Dry Ice Capades.

Math N Stuff: PlayThinks with Maths, Puzzles, and Games (Mathletics)

(3rd-5th Grade, Min 4/Max 12)

Not your *average* Math class -- PlayThinks is a space where curiosity, fun, play, sideways thinking, and discovery rule. Math is so much more than just numbers -- and while we will also use numbers, there will also be SO MUCH MORE. Intended for upper-elementary students, we believe everyone can enjoy an _exponential_ experience exploring the landscape where "Play" and "Think" <intersect>.

Pacifica Writer's Workshop: Mysteries, Thrillers, and Frights

(1st-5th Grade, Min 4/Max 14)

Do you have a young detective or thrill seeker in your household investigating strange events? In this class, students will learn a number of techniques to make their stories suspenseful. They will then create terrifying tales and baffling mysteries to share around the campfire.

Tabletop Village: Pokémon Club

(2nd-5th Grade, Min 8/Max 18)

By providing lessons for children to trade and learn how to play the Pokémon Trading Card Game, your children will learn how to contextualize their reading and math skills, long term strategic thinking and planning, how to make fair and equitable trades, and how to be a kind and sportsmanlike competitor. Our certified Pokémon Professors will provide, decks for children to play with (all levels of play) among - other materials, teaching materials and educational games (Pokécatch, Attach and Attack, Raid Battles, etc.), and high-quality lessons/presentations on how to play Pokémon TCG.

Wedgwood Drama Studio: After-School Drama

(K-2nd Grade, Min 8/Max 20)

Come explore the Dramatic Arts in a supportive and fun environment! Through theater games and exercises, students will explore how actors use their bodies, voices and imaginations to tell stories and create characters. Whether you are new to the stage or consider yourself a veteran performer there will be something for everyone in this creative class. **7 weeks only**
